## Flood Crest On Columbia River Is Near

Thousands Are Homeless In  
Most Costly Flood In History  
Of River

### RIVER LOWLANDS BEING EVACUATED

By GEORGE L. SCOTT  
(N. S. Staff Correspondent)

PORTLAND, Ore., June 1.—Lowlands along 120 miles of the rampaging Columbia were cleared of residents today as the most costly flood in the history of the river neared a climax.

The toll of dead—if any—still was not known in the stricken Vanport area on the edge of Portland. No bodies have been found, and authorities postponed a hunt in the submerged wreckage for fear of injury to the searchers.

Thousands Homeless  
Thousands of persons were homeless, 18,700 from hard-hit Vanport alone.

Already the Columbia has inundated two cities and threatened two others, besides crippling communications in the Portland area.

The army engineers asked residents to flee the lowlands along the Columbia all the way from the mouth of the Sandy river, east of Portland, to Astoria at the Columbia's mouth. Affected are 43 drainage districts protected by dikes.

No estimate was available on the number of persons affected by the order described by the army engineers as a "precautionary step."

Covers Part Of Portland  
The backed-up Willamette covered sections of Portland and crept farther into the downtown business district. Railroad yards already were under water, and some trains were running on submerged rails.

The Columbia is expected to reach a crest of between 31 and 31.5 feet at Vancouver, Wash., tonight. The latest reading was 29.5 feet, at least a foot and half below the crest. The stream is bank-full at 15 feet.

A Portland General Electric company employee was feared drowned when flood waters won an all-day fight with engineers and stormed through the Denver Avenue fill north of Portland.

The man was identified as Mike Skag. He was trying to back up his truck when the road caved in. The red tail light was seen whirling in the water and then was swept from sight.

Rubbish-laden water from stricken Vanport swept through the Denver Avenue break and washed out a section of the Union Avenue fill, flooding a wide area on Portland's northern outskirts.

NORFOLK, Va., June 1.—(INS)—Approximately 20 men are missing today following the capsizing of a naval launch during a storm last night which plunged 90 marines and sailors into the black, heavy seas off Norfolk.

The 50-foot open launch was swamped at 9:45 o'clock last night about 200 yards from the aircraft carrier Kearsarge, which is anchored in Hampton Roads.

Norfolk, Va., June 1.—Navy rescue craft ploughed through torrential rain and choppy waters of the Hampton Roads area today in search of survivors from a Liberty motor launch which overturned with approximately 90 men in the pitch blackness of last night.

The 40-foot motor launch was carrying a load of sailors and marines from the Norfolk naval base to a task force anchored near Old Point Comfort when the vessel was swamped and the men thrown into the blindness of the storm-churned waters.

## Fatality Records For Holiday In Nation Near 300

Traffic Accidents Cost At Least 160 Lives In Incomplete Report

### TWENTY-TWO LOST IN LAUNCH SINKING

(By International News Service)

One of the worst Memorial Day holiday fatality records in the nation's history appeared headed for the books today.

Far from complete reports showed the death toll approaching the 300 mark in traffic, drowning, plane and other accidents over the three-day weekend.

The figure did not include complete fatalities from accidents occurring as thousands of motorists returned to their homes over the highway.

Many Are Missing  
Scores are missing in the Pacific northwest where rivers in the Columbia basin are swirling over their banks.

The death toll from the swamping of a 40-foot navy launch at Norfolk, Va., is reported at 22. Normal complement of the craft, which went down en route from the Norfolk naval base to the aircraft carrier Kearsarge, is about 90.

The national safety council had gloomily predicted there could be 225 violent deaths during the weekend, compared to the 500 fatalities listed for last year's Memorial Day holiday.

The council's forecast of 112 traffic deaths alone was exceeded before the weekend was two-thirds gone.

160 Die On Highways  
Some 160 persons lost their lives on the nation's highways.

Illinois led the other states with a total of 25 deaths. California followed with 21 and New York had 15.

Meanwhile, 21 deaths have been recorded in the northwest floods in which the Vanport, Ore., housing project of 18,500 persons was wiped off the map in less than an hour when a Columbia river dike burst.

The heaviest loss of life in plane accidents occurred in Florida in the crash of three naval planes. Four Kansans were burned to death when their Stinson crashed and exploded in a wheat field near Colby, Kans.

An estimated 30 million automobiles on the nation's highways helped raise the fatalities from traffic accidents.

Motorists jammed the highways leading into and out of metropolitan centers and thousands went to the beaches during the holiday weekend.

Not on the family or relatives but on young folks who graduate, and they end their scholastic careers tonight, and commencement time is at eight. Four years of high school are finished, and ahead lies the world to meet, come by the way of college halls, their learning yet to complete. And for some there's a job a-calling, and tonight they will get away, from the world of high school and all it brings, it's 88 today.

Canon of Samos was a Greek mathematician and astronomer who lived at the court of Ptolemy IV Euergetes (207-222 B. C.). He is credited with giving the name of Coma Berenices to the constellation, and with having invented the curve known as the spiral of Archimedes. He also composed a calendar giving the time of the rising and setting of the fixed stars.

## TRIBUTE TO WAR DEAD OF DISTRICT GIVEN ON SUNDAY

(Continued from Page Two)

ration committee, assisted by James J. Dennis. A volley was fired over the graves by the burial escort of Perry S. Gaston Post, followed by taps.

Returning to the Diamond, a program of remembrance was staged, with Joseph Solomon, commander of Perry S. Gaston Post, American Legion, presiding as master of ceremonies.

The invocation was given by Rabbi Ivan Gruen, of Temple Israel, there were musical numbers by the Perry S. Gaston Post band, and a trumpet solo by Frank Zicarelli of the Legion band.

Dr. Galbreath Speaks

Dr. Robert F. Galbreath, pastor of the First Presbyterian church, gave the address of the day, in which he paid tribute to the heroism of those who have served their nation in time of need, concluding with the thought that as good Americans, we should serve our country in peace by living up to the high standards of American citizenship, and exercising the rights which liberty has granted us.

The program was concluded with the benediction by Rev. D. T. McIntosh, pastor of St. Luke's church, the sounding of taps, and the volleys by the firing squad, after which the national anthem was played.

The bands of the Senior High school and Ben Franklin Junior High school also took part in the parade, and the auxiliaries, boy and girl scouts, and other organizations were also represented.

Evening Programs

In the evening, the Ladies of the G.A.R. had their customary water service at the North street bridge, when the memory of those who gave their lives at sea was honored.

The speakers were Rev. Thomas J. Jones, pastor of the First Congregational church, and Register and Recorder Orville Potter. The ritualistic service of the Ladies G.A.R. was followed under the direction of Mrs. Minnie Mayers. Music was furnished by the Vocalists, a male quartet, composed of Walter Lukart, Charles Shaw, Jack McMillin and Stephen Polley.

The ceremony was concluded with a volley by the Burial Escort, taps, and the Star-Spangled Banner.

Those taking part assembled at the city building and marched to the bridge, headed by the Perry S. Gaston Post band, after which they re-assembled and marched to Trinity Episcopal church, where the concluding ceremony of the day was presented, with special services of memorial, honoring particularly those from the community who have died during the past year, and including the names of those whose remains have been brought home from overseas.

This program was in charge of Perry S. Gaston Post, American Legion, with Worrell M. Jones a chairman.

As the names were called by A. Lewis Conn, head of the county department of veterans affairs, a white carnation was placed in a cross in front of the altar.

The rector, Rev. Ralph E. Hovencamp, then gave a sermon significant to the occasion. Band numbers were played by the Perry S. Gaston post band, with taps at the close of the program. There was special music by the choir, also.

This concluded a day of tribute, which was most impressive.

grave Sunday. When Mrs. Workman returned to the grave Monday she found the vase was missing and the flowers were strewn on the ground.

State police were much in evidence along the highways of Lawrence county over the Memorial Day holiday period. This probably was a large factor in the result of no bad accidents on the roads here.

The boys regained honors last month at the Jameson Memorial hospital, after training for the past three months. There were ten more boy babies born at the hospital in May than there were girls. The total was 61 boys, and 51 girls, for a total of 112. This corresponds with 135 born in May 1947.

Graduations in Lawrence county high schools will end this week. New Castle high seniors get their diplomas tonight and Shenango high students graduate Thursday night. Westminster college graduation exercises will take place next Monday.

Camil DeVincentis, South Mercer street, and Julio DeVincentis of 1301 Croton avenue have returned from a fishing trip around the Allegheny river near Oil City. Their catch was two carp, one weighing 27 pounds and the other 26 1/4 pounds.

a lounge car in the rear from which he will make several platform speeches.

Heavily Armored

The presidential car itself is heavily armored and weighs many tons. Its windows are fashioned of thick, bullet-proof glass. The interior walls are paneled in greenish lined mahogany.

An elaborately-devised communications room at the front of the train will keep Mr. Truman in constant touch at all times with the nation's capital by radio, telephone and teletype.

Mrs. Truman and daughter Margaret, when they join the president's party at Omaha, will be assigned special compartments designed for members of the president's family.

These undoubtedly will be the same quarters occupied several years by Mrs. Franklin D. Roosevelt and her daughter, Mrs. Anna Boettiger, when they accompanied the late Franklin D. Roosevelt on his longer rail trips.

The presidential train will be made up entirely of drawing rooms with several club cars and dining cars for the use of the official party and some 60 reporters who will accompany the chief executive.

The president's own private lounge car at the rear is equipped with a public address system to amplify Mr. Truman's back platform speeches.

And, as railroad executives point out proudly, President Truman can't make back-platform speeches when he is traveling by plane or ship.

and the police state comes out of  
a belief in freedom and in the  
rights of the individual that is per-  
haps deeper than in any other part  
of the country.

Yet the fact remains that the  
south has not used the powers of  
the states to channel the process  
of change. Consider what might  
have been the reaction to the pre-  
sident's proposals. Instead of po-  
litical conventions devoted to ways  
and means of resisting Mr. Tru-  
man personally, the south might  
have held a convention to study  
how opportunity might be equal-  
ized within the framework of  
states' rights and the pattern of  
southern conduct. Such a meet-  
ing would have made a deep im-  
pression on the country.

Two facts tend to beloud the

about them—advertisements. Well,  
they have done that all right and  
Communism is a nice new play-  
thing for them. The best cure for  
the infatuation of these Hollywood  
people would be a five-year resi-  
dence in Russia. At the end of that  
period American ideas might be a  
cordially welcomed innovation.

### JOBS UPON A TIME

Monte Proser, proprietor and  
angel of a successful Broadway  
musical, was born in England. He  
has been a circus barker, night  
manager of a small restaurant, a  
fight and press agent. At one time  
Proser owned seven night clubs  
throughout the country, but has  
now discontinued six, leaving him

with only one, the Copacabana of  
New York.

Jane Froman, star of night clubs  
and radio, first chose journalism  
as a career. Editors failed to see  
the point, however, so Jane entered  
the Cincinnati Conservatory of  
Music and then stepped into a  
radio career. Miss Froman made a  
motion picture, "Stars Over Broad-  
way." Later she appeared on the  
stage and sang in night clubs. When

on a trip overseas for the USO  
during the war, she was badly in-  
jured in a plane crash.

### FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag  
everytime you try to do something? If  
so, don't let a low blood count hold you  
down when you may release vibrant  
energy to every muscle, fibre, cell.  
Every day—every hour—millions of  
tiny red-blood-cells must pour forth  
from the marrow of your bones to re-  
place those that are worn-out. A low  
blood count may affect you in several  
ways: no appetite, underweight, no  
energy, a run-down condition, lack of  
resistance to infection and disease.  
To get real relief you must keep up  
your blood strength. Medical authorities,  
by analysis of the blood, have by po-  
sitive proof shown that SSS Tonic is  
amazingly effective in building up low  
blood strength in non-organic nutri-  
tional anemia. This is due to the SSS  
Tonic formula which contains special  
and potent activating ingredients.  
Also, SSS Tonic helps you enjoy the  
food you eat by increasing the gastric  
digestive juice when it is non-organ-  
ically too little or scanty—thus the stom-  
ach will have little cause to get balky  
with gas, bloating and give off that sour  
food taste.  
Don't wait! Energize your body with  
rich, red-blood. Start on SSS Tonic now.  
As vigorous blood surges throughout  
your whole body, greater freshness and  
strength should make you eat better,  
sleep better, feel better, work better,  
play better, have a healthy color glow in  
your skin—firm flesh fill out hollow  
places. Millions of bottles sold. Get a  
bottle from your drug store. SSS Tonic  
helps build sturdy health.

Two persons were injured in a crash between a truck and an auto at 6:15 a. m. DST Sunday one and a half miles east of this city on the New Castle-Butler highway. Both were taken to the New Castle hospital. They are:  
Doris Johnson, 19, 1906 Lake-

Jake Holbey, 18, 52 Park avenue, Youngstown; facial cuts and laceration of an arm.

The Air Force has been so impressed over its preliminary order of Boeing C-97s Stratofreighters that it has placed an order for 27 more of them.

## Accused Slayer Of Policeman Goes On Trial

PHILADELPHIA, June 1.—(INS)—David Almeida, 33-year-old bank robber and fugitive in a nationwide search that lasted a year, goes on trial in Philadelphia today for his part in the slaying of Patrolman Cecil Ingling, January 30, 1947.  
One man, Edward Hough, 33, already is under death sentence for taking part in the killing. He was captured by police when he fell from the running board of the gang car which was fleeing from a West Philadelphia supermarket where Ingling foiled a robbery attempt.

**Seek Death Penalty**  
A third defendant, James F. Smith Jr., 24, also of Philadelphia, is slated to go on trial in two weeks.  
Almeida and Smith made good their escape from Philadelphia and were finally arrested last January by the FBI after staging a \$117,000 holdup of a New Orleans bank.  
Both were charged with complicity in the bank robbery and drew 35-year sentences. The commonwealth will demand the death penalty for the Ingling slaying.

## NEW BEDFORD

### Y.P.C.U. PARTY

The Young People's society enjoyed a progressive party on Monday evening. The party got under way at the home of Robert and Elizabeth Cooper. From there it progressed to Donald Shields, Gorleys, and finally wound up at Goodges. The impressive part seemed to be that food was served at each stop. The party was really a surprise for Donald Holtsman and Marie Rose who were presented with a toaster and a pressure cooker along with the good wishes of the society.

### CLASS PARTY

Mr. and Mrs. Walter Smith entertained Mrs. Paul Brown's class in their home Wednesday evening. During the evening games and contests were enjoyed with prizes being awarded to Miss Maxine Hollerman, Mrs. Cramer Gorley, and Harris Sagabel. One of the contests was to name the 48 states and we are not telling how long that took. A bountiful lunch was served as a climax to the party. Special guests were Mrs. Donald Hepler and Mrs. Glenn Hepler.

### FIFTH BIRTHDAY

Mrs. John Komar honored her son, Roy, on his fifth birthday on Thursday when she entertained eight boys from ten until one o'clock. The boys found plenty to play and at noon a tempting lunch was served on the lawn. Roy received an array of gifts. Guests included Robert Cover, Donald Baynam, Norman Wallace, John Moorhouse, Paul Gruenewald, Billy Taylor, Jackie Whiting, and Roy.

### EVENING CLUB

Advises every sufferer from Rheumatic-Arthritic-Sciatic-Neuritic Pains to try Muscle-Rub.

Here's the true story of a man who took treatments, used all kind of remedies, his sciatic, neuritic pains without being helped in the slightest degree. Then one day he saw an advertisement of Muscle-Rub—the doctor's prescription—and in desperation bought a bottle. He used it as directed and in 3 days the pains were relieved and Mr. Jordan was back on the job.

No wonder he advises every rheumatic sufferer to try Muscle-Rub for fast pain relief. Get a bottle today at

## Three Killed As Auto Rams Pole

Four Suffer Critical Injuries In Philadelphia Crash Early Today

PHILADELPHIA, June 1.—(INS)—Three persons were killed and four critically injured early today when their automobile crashed into a utility pole in North Philadelphia.

The fatalities brought the Memorial day weekend traffic toll in the Philadelphia area to nine. Pronounced dead at Temple University hospital this morning were Joseph Skubish, 28, owner of the demolished vehicle; John Cholewsky, and Dorothy Shult, all of Philadelphia.

**Rams Into Pole**  
The other four occupants of the car were also taken to the hospital in such critical condition that police could not question them immediately.

They were identified as John Neveline, Joseph Utrate, and Matthew and Stanley Bajko, brothers, also Philadelphians.

Police said the car was making a turn when it rammed into the pole hurling its occupants to the street, they could not determine who was driving.

## Graduation At Franklin High

Program Presented By Ninth Grade Friday As Class Ends Junior High Career

For the ninth grade graduation program in Benjamin Franklin junior high school Friday, May 28, the students added a nautical touch. The program was presented aboard the "SS Franklin" with the Class of 1948 as the crew. Captain Fred Hassan gave the orders with Thomas Spence as the lookout. The ship's orchestra was composed of Mike Augustine, Walter Bucci, Bill Hares, Joe Reed, Don Strobel, Reggie Thompson, John Anderson, Jim Kaplan and Clara Bratschie.

The "sailors" opened their cruise with a parody on "Now Is the Hour". Solo parts were taken by Lucy De Vincents, Angela Esposito and Lucy Chirumbolo. Peggy Florida was the piano accompanist.

As the "ship" moved out the class donors, Shirley Galone and Pearl Pritchard came aboard to distribute parting gifts. The class gift was made to Principal Gerald E. Nord by Dolores Aven, president of the Student Council.

The departure was delayed again while the class will was read. Lookout Thomas Spence found his glass had been given magical powers and thus found it possible to prophesy the class future. He also forecast the program to follow and sure enough his prophecy came true. The program follows:

## Machinists May Take Strike Vote

Reports Current That Vote Is Being Planned By United Plant Machinists

While no authority for the statement can be quoted, there appears to be a likelihood that the machinists of the United Engineering & Foundry Company will take a strike vote on Wednesday.

The contract between the company and Local 1671, International Association of Machinists expires as of today. Some negotiations have been conducted between management and the international representative of the union. Troy C. Burns, state labor mediator, and Charles R. Ward, federal mediator, have sat in on some conferences but no settlement has been effected.

For the union a wage increase has been asked, and some changes in the contract. One change agreed to by management is that of vacations. Heretofore a man had to have a year's service dating from January being eligible for a vacation. It was agreed that a partial year's service would be given credit upon vacation time.

The management's response to the request for a wage increase was that it would follow Big Steel, as it has in the past. When and if Big Steel grants an increase, the United Engineering will, but an increase as of now is refused, it is reported.

The specific points of issue are not too clear, due to a refusal of interested parties to make a definite statement.

It is said that a committee of 14 has been handling negotiations for the men and that the committee recommended a strike vote.

## SENIORS HEAR REV. J. C. ROSE

(Continued from Page One)

seemed to have new beauty and meaning. Perhaps it was because of the sermon by Rev. Rose. It was simple and direct, it had meaning and purpose. It was a sermon stripped of any useless verbiage or homiletic pyrotechnics. It was simple and direct, it had meaning and purpose. It was a message that fitted the occasion, one that will be remembered by the class and audience.

Synopsis of Address

A brief synopsis of Rev. Rose's sermon follows:

Three Basic Questions

"Where there is no vision the people cast off restraint; but he that keepeth this law, happy is he." Proverbs 29:18.

Before you can accomplish any great good in life and before you can find much joy and happiness in life, there are three basic questions which you must face.

The first is: what is my attitude toward God and the moral law. The world suffers today because men and nations are attempting to toss God out the window and to do away with any absolute of right and wrong. As a result, confusion reigns in the minds of the multitudes and daily we read of the tragedies that are taking place in human life because we have lost sight of what is right and good.

We have cast off the maxim of the New Testament, "We must obey God rather than men." We judge by their actions that the multitudes live by a new and up to date maxim. "We must believe men rather than God." Thus we follow sinful men as he speaks through the voice of the crowd.

Young people sometimes say, "You've got to go along with the crowd." I declare to you that you don't have to go along with the crowd. That most often it is better for you when you do not follow the crowd.

Any weakling, any moral coward, the cheapest and most vulgar person can travel with the crowd, but it takes moral stamina; it takes a man with courage to rise up and beckon others to follow in higher ways of life. In which path will you walk? Tonight you are young—just commencing to live—therefore profit from the judgement of the wise man of old, "he that keepeth the law, happy is he."

2. What is your attitude toward others. Is the idea of the brotherhood of man just an idea

with you, or is it a principal of your life? Do you have a spirit of tolerance toward your brother. This does not mean that you must have the same convictions as your brother but that you will respect his convictions, as do Protestants. When we join in this service tonight we manifest a spirit of tolerance—we have respect for the convictions of one another—we only wish that all groups within our city might work together in this spirit of tolerance. America has not become great because of bigotry, but because of her spirit of tolerance when all groups within this land might worship God as they choose—but each having respect for the other. We must not, as individuals or as a group say with the Nazis, "We alone are right, all others are inferior to us."

3. What is the purpose of your life? The reason a lot of people never get very far in life, feel cheated and robbed of life, is because they never had any great purpose in living. Their aims have been of a very selfish nature. We believe that the high purpose of life is to "glorify God" which we do when we labor for the building of His church and His kingdom.

You have a life to live, a work to do and may you do it well. May your days be many, and may you live all the days of your life.

## Lawrence County Farm, Home News

Extension Representative Lewis C. Dayton,  
Agriculture, and Miss Elizabeth Robinson,  
Home Economics

### LOOKS LIKE AMPLE HAY FOR SILAGE

Wet weather in May means a big crop of hay. That being the case, much of the early hay crop may be going into silos, perhaps to the extent that it will be substituted for part of the corn silage.

Grass silage can be put up with good haying machinery. Use of field chopper, self-unloading wagons and blower at the silo involves the least labor. Such equipment also may be used to put up chopper hay as well as silage.

Hay with at least 25 per cent grass needs no preservative. Adding molasses or corn meal to legume silage helps assure the silage will come out in sweet and palatable condition.

Grass and legumes should be wilted slightly before chopping to reduce the moisture content. This makes it easier to handle, reduces excess pressure on the silo walls, eliminates leakage of juices from the silo and will produce better silage. If they are past bloom stage, grasses will need little or no wilting in clear weather.

Lawrence county farmers find that by putting up grass silage when the weather is not suited for making hay, and putting up hay when the weather is favorable, they get their hay crop harvested at much more nearly the proper stage of maturity. In this way they also reduce serious losses from weather damage. If the crop gets too old in the field it will not make good hay or silage.

### DRIVER IS HELD

Michael Tarasek, Pennsylvania avenue, was charged with driving a motor vehicle while intoxicated, in an information sworn to by Police Chief Robert D. Hanna. He gave bond for a hearing before Alderman James C. Brice. Cruiser Policeman Jack Liewellyn arrested Tarasek in Neshannock avenue at eight p. m. May 30. The car Tarasek drove struck the police car's fender, according to police report.

The pocket-gopher is a rat-like rodent, found chiefly in North America, so-named because of large cheek-pouches.

### SICK INSURANCE

Usually when we speak of sickness insurance we do not mean prevention of disease.

We mean that the insurance company will pay a person money if he is unable to work.

Prevention is much better than insurance.

Pure water, clean milk, good food, proper sewerage, vaccination, cleanliness, good schools, good churches and good police all help to prevent sickness and accidents.

Public health is an important problem. Each individual needs to do his bit.

## X-Ray 'Eye' Looks Through Steel

LINHART, Pa., June 1.—(INS)—An X-ray "eye" which looks through four inches of steel is in operation at the Westinghouse boundary and copper mill at Linhart.

The machine developed and manufactured at the Westinghouse X-ray division, Baltimore, is used to inspect finished castings and to develop new casting techniques. Superintendent W. J. Laird said today.

It takes pictures of the internal structure, revealing defects and displacing the former method of literally tearing the samples apart to find flaws.

By studying flaws, foundrymen are able to devise production methods which eliminate the defects.

## Tax On Coal Is Ruled Legal

PITTSBURGH, June 1.—West Deer School Districts five-cent tax upon each ton of coal mined in the township was declared legal by a court en banc of Quarter Sessions. In upholding the levy, the court dismissed the appeal of Republic Steel Corp. and Ford Collieries.

The opinion was written by Judge William H. McNaughton and concurred in by Judges Walter P. Smart and Russell H. Adams.

West Deer School Board adopted the tax February 20 and the appeal was taken March 19.

Max O. Siegel, school board solicitor, who argued for the tax, would not estimate the revenue expected from the levy.

## Twenty-Seven In Congress Ask Bar On Use Of Funds

Would Restrict Great Britain From Using U. S. Funds To Aid Arab Nations

WASHINGTON, June 1.—(INS)—Twenty-seven congressmen appealed to the house appropriations committee today to bar Great Britain from using American funds to aid Arab nations, whose armies invaded Palestine.

The house members, representing nine states, addressed their appeal to the house appropriations committee chairman, on the eve of house consideration of the foreign aid appropriation bill.

The huge appropriation measure contains approximately six billion dollars for Europe and Asia. It is slated to be reported out by the committee later this week, possibly Wednesday or Thursday, and called up in the house immediately thereafter.

One billion dollars is expected to be included in the measure for Great Britain.

Twenty-six Democrats and one American Labor party member threw their support today behind a proposal by Rep. Sabath (D Ill.) that a provision be written into the bill barring Britain from using the funds—"either directly or indirectly"—to aid the Arabs.

## State Of Emergency Caused By Floods

British Columbia Takes Drastic Action To Cope With Flood Disaster

VANCOUVER, B. C., June 1.—(INS)—British Columbia officially was in a "state of emergency" today as the army, navy and "commandeered" civilians strove to save 2,000 persons trapped by the flooding Fraser river.

Premier Byron Johnson, in proclaiming the emergency, empowered the commander of the army to call out all British Columbia troops and to take whatever action necessary to "combat the floods."

Marooned by the flood waters are 2,000 residents of Matsqui and Rosedale, described as "in peril" from torments pouring through two dikes ripped open by the Fraser river.

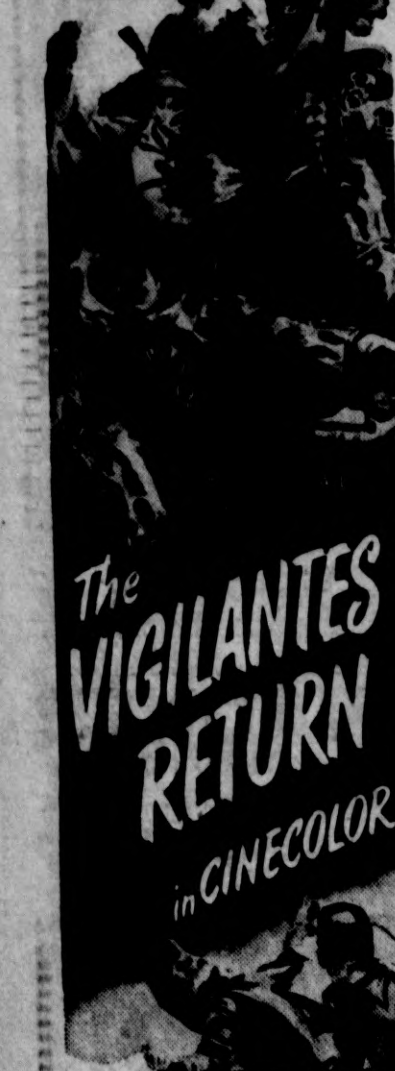

All available naval craft were rushed to Mission, B. C., to erect a mass evacuation.

The new disaster struck in the fertile farm area where the flood damage previously was estimated at between 15 and 20 million dollars.

Compulsory old-age insurance was first adopted in Germany in 1833.

## Suicide Reveals Funds Shortage In Philadelphia

Chief Of Amusement Tax Division Kills Himself, Leaves Damaging Note

PHILADELPHIA, June 1.—(INS)—Republican City Chairman William F. Meade has summoned every ranking department head of the city government to a caucus tomorrow to thrash out alleged shortages in tax funds which were disclosed by the suicide of a city employee.

Meanwhile, Thomas Evans, prominent attorney, sought the aid of Gov. James H. Duff for an investigation into the purported shortages estimate at more than \$300,000.

"The city is in such a mess that we, a group of business men, are planning an appeal to the governor," he declared.

Note Reveals All The scandal "broke" with the suicide of William C. Foss, chief of the amusement tax division, who hanged himself after writing a note entitled, "How the Amusement Tax Money Was Divided".

Seven men were mentioned in the note, including six city employees. One of them currently is under \$5000 bail, and another died from a heart ailment the day before authorities were slated to question him.

Meanwhile, it was learned that city officials had located the seventh man who was not a city employee, and were swearing out a criminal warrant for his arrest. The other employees were suspended until the outcome of the investigation.

## Memorial Service Held By Marines

Annual Memorial Is Event Of Sunday At Trinity Episcopal Church

They never forget. Marines of the Gunner Sergeant Harry T. Burns detachment paid tribute to their departed comrades Sunday morning in the annual memorial service. This year the service and rose ceremony was held in Trinity Episcopal church. The rose ceremony is one that is beautiful in its simplicity, reverend in its implications. As the name of each marine who died in World War II is read, a red rose, signifying the red badge of courage, is placed upon a white cross, symbolic of purity. At the same time a lighted candle is snuffed out, signifying the end of a life.

For the service a uniformed detachment was drawn up at the altar of the church. Major Robert M. White was the senior officer, with Joseph Pearson in charge of the ceremony. The color guard consisted of Master Sergeant Daniel Horne, Sergeant William Painter, Sergeant Darwood Jones and Commandant George L. Jones. D. O. Davies and William Smith were rose bearers and Ralph Hughes and Roger Flamingo candle snuffers. Fred Berner and Dale Lawson delivered the roses to the bearers as each name was called. At the end of the ceremony a rose was placed on the cross in memory of all marines who have given their lives for their country.

The memorial service came midway in the order of service conducted by Rev. Ralph E. Hovenkamp, rector of Trinity Episcopal.

This is an anagram. The four scrambled words tell a well-known truth these days of scrambled budgets.

You may have to do a little figuring to discover that it says: "ELECTRICITY IS A BARGAIN"—but it doesn't take much figuring to realize what a great bargain electricity really is!

Your pocketbook tells you that living costs have skyrocketed—that nearly everything costs more nowadays. But not electricity! The average family still gets twice as much electric service for its money as it did 20 years ago!

Check your budget and ask yourself what other item does so much to make life easy and comfortable—at such little cost!

## Move To Provide Aid To Victims Of Western Flood

Three-Front Movement To Provide Aid In Northwest Flood Disaster

WASHINGTON, June 1.—(INS)—A movement is underway on three fronts today to provide immediate aid to victims of the disastrous Pacific northwest floods and to provide funds for construction of vital flood control projects on the Columbia river.

Emergency action was taken in response to appeals from the governors of Oregon, Washington and Idaho and urgent pleas for prompt relief in Vanport, Ore., and Woodland, Wash., where broken dikes left thousands homeless.

Developments:  
1. The government acted to make surplus army and navy and War Assets Administration supplies available.

2. Sen. Morse (R) Ore., said Pacific northwest senators would press for immediate relief and housing funds and supplementary food control appropriations.

3. The American Red Cross earmarked \$250,000 for the relief of Vanport residents and sent more than 60 workers into the area.

Speakeading federal assistance, President Truman ordered war surplus goods made available to the stricken victims.

Presidential Secretary Charles G. Ross, who announced the order, said that details would be worked out by Maj. Gen. Philip C. Fienling, head of the federal works agency, and Lindsey R. Durkee, engineer of FWA's bureau of community facilities.

During 1947, the year of greatest recorded peacetime steel production, the two-billion ton of steel of the 20th century was produced in the United States.

## Youth Council To Start Drive

N. A. A. C. P. Council Announces Membership Campaign To Be Started On June 5

The youth council of the National Association for the Advancement of Colored People announces the opening of its drive for new members beginning June 5.

Many have heard of the NAACP, still persons ask "What is it?" "What does it do?" The National Association for the Advancement of Colored People, founded in 1909, is an organization composed of one-half million American citizens of all races, creeds and color working for the attainment of a society of equality, security and freedom for all. It is a national organization comprising 1629 city and county branches in 44 states, the District of Columbia and the Territory of Hawaii.

"The NAACP seeks full equality for every citizen of the United States. It opposes racial segregation and discrimination in every field including housing, employment, education, law, recreation, travel and the armed forces."

For the sound reason that Negroes are concentrated among lower income groups, the NAACP supports legislation for rent control, health insurance, collective bargaining, public housing and an increased legal minimum wage, which will benefit all workers and farmers by increasing their purchasing power and security. Also, every victory achieved by the NAACP in the field of civil rights re-enforces the civil liberties of every American.

By joining the NAACP you can add your voice to the demand for democracy which is coming from the peoples, colored and white, in all parts of the world. You build for yourself and all Americans a bulwark against the continuing assault on civil rights.

## Pittsburgh Has Milk Strike Threat

**PITTSBURGH, June 1.—(INS)—**  
Pittsburgh still is threatened today with a possible milk strike. Extension of the old contract between AFL Milk and Ice Cream Drivers, Local 205, and companies expires today, but negotiations are scheduled to continue in an effort to avoid a strike.

Harry Travis, local union president, announced that in event of a strike hospitals, orphanages and other emergency cases will receive milk deliveries.

The dispute between the drivers and the Greater Pittsburgh Milk Dealers association is over wages and working conditions.

A strike would cut off deliveries to more than one million milk consumers in the Pittsburgh area.

THE LINCOLN

## TWO COMPLETELY NEW 1949 Lincolns

IN A CHOICE OF MAGNIFICENT BODY STYLES  
AND TWO SEPARATE PRICE RANGES

A new fine car isn't made overnight.  
Not a really new and really fine car.

The 1949 Lincolns you can see now at your Lincoln dealer's have been years perfecting. Here was a job that couldn't be rushed. For these 1949 Lincolns were designed to meet the 1950s more than half way; to be the automotive pattern for years to come.

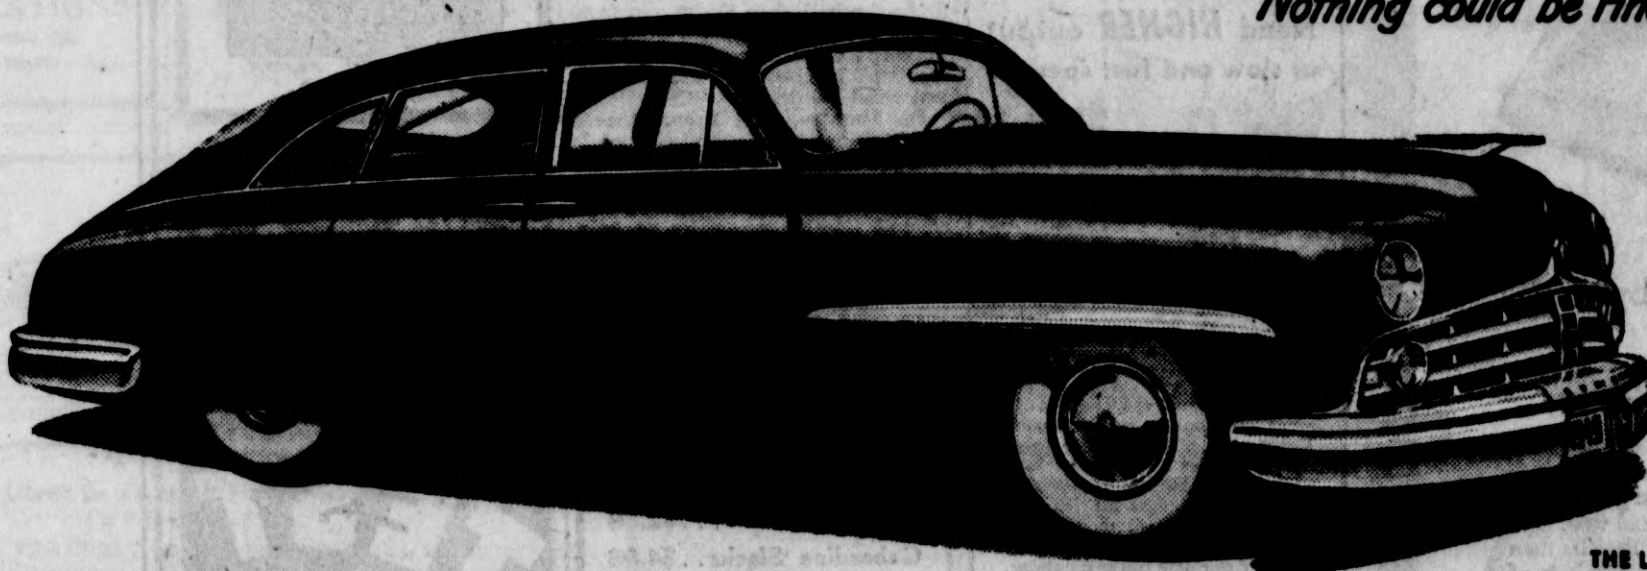

Are they beautiful? Of course, with a new, massive breadth of line that's fresh to the eye...and sheer joy when you see how much extra room it means. They've got a low, hug-the-road look. And feel how their new super-balloon tires, with their wider, safer rims, really cushion your ride.

Are they powerful? In both the Lincoln and Lincoln Cosmopolitan, there's the same powerful engine. Newly designed right from the blueprints up, 8-cylinder, V-type, 152-horsepower...it's as fine an engine as human skill can make. A fortress of strength...built with the precision that goes into aviation engines.

Are they luxurious, these new Lincolns? Naturally. From the smart upholstery fabrics and distinctive color combinations to their new carefree, effortless ride, these Lincolns are a revelation and a new experience in motoring.

Yes, look at the fine cars of the '50s...Look at Lincoln.

Nothing could be Finer...or Newer!

From ornamental grillwork—these ornamental Arrows!—

Perhaps you've seen (or read about) the exquisitely wrought iron grillwork that adorns the porches and balconies of mansions in the South. If you have, you probably wished you had their equal in some form for your very own.

Well sir, you can, for their counterparts will be found in the patterns of this superb new series of ties called Arrow Patio Prints. A fine rayon Rumchunda fabric in bright, sparkling colors is used to set off the striking design motifs.

See them in the magnificent color selection we have today.

## Lou Lautenslager Records His Third Hole-In-One Shot

Local Insurance Man Joins Bill Nunn With Three Holes-In-One At Castle Hills

Lou Lautenslager, local well known insurance man, has joined the veteran Bill Nunn with three holes-in-one at the Castle Hills course. Lautenslager made his third one late Sunday afternoon on the No. 2 167-yard hole while playing in a foursome consisting of his wife and Mr. and Mrs. Fred Scheppelle.

Lou had a 38 for the nine holes, showing that the almost unsurmountable feat didn't bother him too much. Scheppelle attests to the fact because he picked the ball out of the cup himself, Lou being much too excited. There should be a law against a man making three holes-in-one, when the average golfer—millions of them—don't make one in a lifetime.

Lautenslager's other memorable feats were recorded as follows: first one, No. 11 hole, August 9, 1942; the second one, No. 7 hole, July 4, 1947, and again Sunday, Nunn's three famous holes-in-one were made as follows: July 19, 1942, on No. 7; September 9, 1945, on No. 2, and July 12, 1946, on No. 2.

New Castle now has two golfers in a very exclusive group.

### Speaker Martin Bitterly Assails 'Secret Deals'

Memorial Day Address By House  
Speaker At Gettysburg  
Is Vile

GETTYSBURG, Pa., June 1.—(INS)—House Speaker Joseph W. Martin, Jr., assailed what he called "secret statecraft and diplomacy" and "deceits of the Kremlin" during a Memorial Day address at the national cemetery near Gettysburg.

The Massachusetts Republican, considered a dark horse candidate for the Republican presidential nomination, said the American people were entitled to know of commitments made by the Federal government.

Speaking at the resting place of more than 3500 Union heroes who fell in the bloody three-day fighting around Gettysburg, Martin backed a "mighty air force," lashed out at unidentified "Communists and fellow travelers who infect the government service," gave assurance that the nation was not "saber rattling" and said Americans were only beginning to learn of "deals" made several years ago in international politics.

He said while an effort would be made to eliminate Communists in government, the nation would seek amicable relations with Soviet Russia.

The total enrollment of Sunday schools in the United States is estimated at nearly 23 million.

### DOUBLE TRAGEDY AT YOUNGSTOWN

YOUNGSTOWN, O., June 1.—Richard Hewitt, Jr., 43, of 151 Wirt street, was suffocated in a fire at 3:45 a. m., Sunday in his apartment and three hours later his son, Phillip, 21, of 217 West Woodland avenue, was killed in an automobile accident en route to Cleveland, where his mother was visiting, to notify her of her husband's death.

Richard Hewitt's body was found near the door of his apartment by firemen.

### Building Is Burned At Pitt University

PITTSBURGH, June 1.—(INS)—Firemen today sought to determine cause of a fire which destroyed the metallurgical laboratories of the University of Pittsburgh, with an estimated loss of \$500,000.

The building, an old Army barracks built during World War I, was located on the upper campus near Pitt stadium. School officials said that the building itself was not of great value and that much of the equipment was obsolete and will not be replaced.

Firemen said that boys playing in an unused portion of the building may have started the blaze.

### Erie Abandons Wage Tax Plan

ERIE, Pa., June 1.—Erie school directors have voted to levy a \$5 per capita tax in surprise abandonment of plans to place a 1/2 of one per cent income tax in effect July 1.

The move came with the board also voting to refund \$250,000 worth of bonds in an effort to overcome a \$513,481 budget deficit.

Still pending in Erie county court is a school board petition for a writ of mandamus in which directors seek to force the city assessor to include machinery in assessment of industrial property.

### Three Drownings In Pittsburgh Area

PITTSBURGH, June 1.—(INS)—Three drownings were recorded in the Western Pennsylvania area over the Memorial Day weekend.

James Stark, 15, of Brackenridge, reportedly drowned Monday while swimming in the boat channel of the Allegheny river at Tarentum.

Police reported that Melvin G. Alwine, 29, of Butler, died Monday in the Youghiogheny river at McKeesport after 12-year-old Cyrus Washington, of McKeesport, failed in a rescue attempt.

The third fatality occurred Sunday when Eugene Dennison, 16, of Beaver, drowned while swimming in the Beaver river at Beaver Falls.

### Franklin Taxes Reach New High

FRANKLIN, Pa., June 1.—Highest school taxes in history of Franklin will be levied this summer, the school board decided unanimously, it was announced Saturday. Millage is advanced to 25 on realty, increase of two mills.

A four-mill personal property tax will be levied, intended to raise \$24,000. A 10 per cent tax on all admission fees for amusements over 20 cents will be charged in the Franklin school district.

A \$10 license fee upon any coin-operated machine not dispensing merchandise is added also. The two mill boost in realty tax should bring in \$13,000 additional revenue, the board decided. The budget calls for \$369,530.81.

A cat usually falls on its feet because of an extra-fine sense of balance and quick reaction when falling. Back of this ability of modern cats is undoubtedly a long history of adaptation of its forebears for agility.
